

**Excerpts from my field diary (July 2009 onwards)**

**Pankaj Oudhia**

**Use of Methi and Amarbel based combinations with Medicinal Rice and Millets in treatment of Type II Diabetes and associated diseases through ST-266.**

**Pankaj Oudhia**

### **Introductory Note**

In Traditional Healing, the Traditional Healers of Indian state Chhattisgarh use Methi (*Trigonella foenum-graecum*) and Amarbel (*Cuscuta reflexa*), collected from six different tree

species, based combinations with selected Medicinal Rice and Millets in treatment of Type II Diabetes and associated diseases through Special Treatment 266. They use it in form of 52 weeks schedule in four sets. I have documented this Traditional medicinal knowledge and added it in Type II Diabetes report in Ecoport.

Recent Ethnobotanical surveys resulted in new information and based on it I prepared modified schedules by adding new herbs and herbal combinations. The basic as well as modified schedules are present in CGBD database. The efforts are in progress to make CGBD database online. The present documents show basic and modified schedule no.1.

Modified (**Methi [GMethi] based Special Treatment 266**) 52 weeks schedule (in four sets) for treatment of patients having [Diabetes](#) with other diseases as suggested by the Traditional Healers of [Indian](#) state [Chhattisgarh](#). [SET 1-WEEK 1. Related Article](#). [Related Ecoport Tables](#). [Note on on-going Documentation work on Type II Diabetes](#).
